RIGHT VIEW

Scale 1:5; looking at the right side (along -X)

WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

- Same outline and hinge-block and spacer holes as the top plate
- This plate is the Kitewright Core's lower deck (interface table, KWC-DWG-001)
- Opening 200 x 112 at the centre for the Core lid; corners radius 3
- Four 4.3 holes for the Core on a 220 x 130 pattern (X 110, Y 65 either side)
- Eight 4.3 holes for the gear blocks at X 60 either side, Y 97 and 127 either side
- Check: the Core's four holes line up with its corner spacers before fitting anything

Bottom hub plate: making sketch
