WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

- Struts: four, 475 long; ends cut square
- Skids: two, 340 long; 4.3 holes 118 and 238 from one end
- Sand 20 at each strut end and the skid at the blocks for bonding
- Rubber end caps pushed on the skid ends
- Check: struts the same length within 1

Gear struts and skids: making sketch

|                                                                                                             |                    |                                                                                                     |                           |                        |                              |
